4. Admin Dashboard

5. Tutor Dashboard & Portal

6. Student Dashboard

7. Financial Escrow System

8. Authentication & Security

9. Auto-Deploy & Content Publishing

10. Troubleshooting

1. System Overview

My Tuition Center is a headless LMS (Learning Management System) consisting of two main parts:

Component	URL	Purpose
Client Website	<code>mytuitioncenter.pk</code>	Public-facing site built with Astro. Shows courses, tutors, about, contact, enrollment forms. Hosted on Vercel.
WordPress Backend	<code>cms.mytuitioncenter.pk</code>	Content management system. Admins manage courses, tutors, enrollments, classes. Hosted on your web server.

How they work together

1. **Admin adds content** in WordPress (courses, tutors, classes)
2. **Auto-Deploy triggers** — Vercel rebuilds the client website automatically
3. **Client website updates** — courses and tutors appear live on `mytuitioncenter.pk`

Key benefit: Edit content in WordPress, and it automatically goes live on the public website within 1–2 minutes. No manual deployment needed.

User Roles

Role	Access	Dashboard
Administrator	WordPress admin + Admin Dashboard	<code>cms.mytuitioncenter.pk/admin-dashboard</code>
Tutor	Tutor Portal	<code>cms.mytuitioncenter.pk/tutors</code> (when logged in)
Student	Student Dashboard	<code>cms.mytuitioncenter.pk/dashboard</code>

Visitor	Public website only	mytuitioncenter.pk
----------------	---------------------	--------------------

2. Client Website (mytuitioncenter.pk)

The public-facing website is where visitors browse courses, meet tutors, and enroll. No login required.

Pages & Features

Page	URL	Description
Home	/	Hero section, featured courses, stats, testimonials, CTA
Courses	/courses	Browse all courses with subject/grade filters
Course Detail	/courses/:slug	Full course info, price, tutor, enroll button
Tutors	/tutors	Browse all tutors
Tutor Profile	/tutors/:slug	Tutor bio, subjects, badges, book trial
About	/about	Mission, values, featured tutors, stats
Contact	/contact	Contact form, address, phone, hours
Enroll	/enroll	Enrollment form with payment receipt upload
Book Trial	/trial	Free trial class booking form
Student Login	/auth	Sign in / sign up for students
Help Center	/help	FAQ and support information
Privacy / Terms	/privacy , /terms	Legal pages
Admin Login	/admin	Redirects to WordPress admin login

Content Display Rules

Courses and tutors displayed on the website are fetched from the WordPress API during build time. If the API is unavailable, the site falls back to hardcoded placeholder content so the pages never break.

Note: After adding/editing courses or tutors in WordPress, the client website updates automatically within 1–2 minutes thanks to the Auto-Deploy system (see Section 9).

3. WordPress Admin Backend (cms.mytuitioncenter.pk)

This is where administrators manage all content. Access via `cms.mytuitioncenter.pk/wp-admin`.

3.1 Managing Courses

1. Go to **Courses** → **Add New** (or edit an existing course)
2. Enter **Title** — e.g. "Cambridge O-Level Mathematics (Syllabus D)"
3. Write **Description** in the editor (full course details)
4. Set **Featured Image** — this shows as the course card image on the website
5. Fill in the **Course Details** meta box (below the editor):
 - **Price** — e.g. "PKR 15,000/mo"
 - **Subject Tag** — e.g. "Mathematics" (used for filtering)
 - **Grade Level** — Primary, Lower Secondary, Upper Secondary, or A-Level
 - **Format** — "Online via Zoom", "In-Person", "Hybrid"
 - **Tutor Name** — the tutor teaching this course
 - **Rating** — e.g. "★★★★★" (stars)
 - **Tag** — e.g. "Course", "Program", "Workshop"
6. Click **Publish**

Tip: The Subject Tag field controls which category the course appears under on the website (Mathematics, Physics, English, etc.). Use consistent names across courses.

3.2 Managing Tutors

1. Go to **Tutors** → **Add New**
2. Enter **Title** — the tutor's full name
3. Write **Bio** in the editor
4. Set **Featured Image** — profile photo

5. Fill in the **Tutor Details** meta box:
 - **Subject** — e.g. "Advanced Mathematics & Statistics"
 - **Badges** — comma-separated list, e.g. "A-Level,O-Level Math,ECAT"
6. Click **Publish**

3.3 Managing Enrollments

1. Go to **Enrollments** in the admin menu
2. View all enrollment requests submitted by students
3. Edit enrollment to **Publish** it when payment is verified — this approves the enrollment
4. When published, the student gains access to course materials in their dashboard

3.4 Managing Classes (Recorded & Live)

1. Go to **Recorded Classes** or **Live Classes**
2. Add Title, set the **Course** (via custom field), and provide the video URL
3. For recorded classes: add the **YouTube ID** in the custom field
4. For live classes: add the **Live Session URL** in the custom field
5. Publish — students enrolled in the associated course will see it in their dashboard

3.5 Managing Tutor Applications

When a tutor applies via the website (with 10K PKR receipt upload):

1. A **Tutor Application** post is created as draft
2. A user account with **Pending Tutor** role is created
3. Go to **Users** and change the role to **Tutor** to approve
4. The tutor receives an email with login credentials and is redirected to their portal

4. Admin Dashboard

Access at `cms.mytuitioncenter.pk/admin-dashboard` — requires Administrator login.

Features

Metric	Description
Total Revenue (MRR)	Sum of all course prices from approved enrollments
Active Students	Number of registered student accounts
Active Tutors	Number of approved tutor accounts
Total Enrollments	Total approved (published) enrollments
Recent Activity Timeline	Latest 5 activities (new enrollments, class submissions) with timestamps

Financial Escrow Dashboard

Access at WordPress Admin → Enrollments → **Financial Escrow**

Column	Details
Course / Student	Enrollment details
Amount Paid	Full course fee
Tutor Share (75%)	Amount due to the tutor
Platform Fee (25%)	Platform commission
Release Date	Date when funds become releasable
Actions	"Release Funds" button to pay out tutor

Important: Funds are held in escrow for 30 days. Only release after verifying the student hasn't requested a refund.

5. Tutor Dashboard & Portal

Access at `cms.mytuitioncenter.pk/tutors` — requires logging in with a Tutor account.

Tutor Dashboard Features

Section	Description
Stats Overview	Total courses assigned, classes submitted, pending payout amount
Timeline & Payouts	Table showing course, end date, payout due date, and release status
Submit a Class	Form to submit recorded (YouTube) or live class, linked to a course
Submission History	Last 5 submissions with status
Account Settings	Freeze/unfreeze account or permanently delete account

How to Submit a Class

1. Log in to your tutor account at `cms.mytuitioncenter.pk/tutors`
2. Scroll to the **Submit a Class** section
3. Select the **Course** from the dropdown
4. Choose **Class Type** (Recorded Video or Live Session)
5. Enter **Class Title** and **YouTube ID** (for recorded) or **Session URL** (for live)
6. Click Submit — class is saved and appears in student dashboards

Tutor Application (New Tutors)

1. Go to `cms.mytuitioncenter.pk/tutors` and scroll to the application form
2. Fill in your details (name, email, phone, subjects)
3. Upload the **10,000 PKR application fee receipt**
4. Submit — your application is sent to the admin for review
5. Once approved, you'll receive an email with login credentials

6. Student Dashboard

Access at `cms.mytuitioncenter.pk/dashboard` — requires logging in with a Student account.

Student Dashboard Features

Section	Description
Stats Overview	Courses enrolled, classes completed, average score
Learning Progress	Overall completion percentage with progress bar
Recorded Classes	List of recorded classes with YouTube embeds and "Mark as Complete" checkboxes
Live Sessions	Upcoming live sessions with "Join Live" button (via secure proxy)
My Enrollments	Course enrollments with refund option (within 30 days and <25% completion)
Account Settings	Freeze/unfreeze account or permanently delete account

How to Access Course Content

1. Log in at `cms.mytuitioncenter.pk/auth` with your student credentials
2. You'll be redirected to your **Student Dashboard**
3. View your enrolled courses under **My Enrollments**
4. Watch recorded classes and mark them complete to track progress
5. Join live sessions at scheduled times via the **Join Live** button

How to Request a Refund

1. Go to **My Enrollments** on the dashboard
2. If eligible (within 30 days and less than 25% complete), click **Request Refund**
3. Confirm the action — your enrollment will be cancelled and refund processed

Note: Refunds are only available within 30 days of enrollment and if you've completed less than 25% of the course.

Account Freeze

Freezing your account pauses your courses so you don't lose paid time. To unfreeze, simply click the button again.

7. Financial Escrow System

The escrow system ensures fair payments for both tutors and the platform.

How It Works

1. **Student enrolls** in a course and submits payment receipt
2. **Admin approves** enrollment (changes status to Published)
3. **Funds held in escrow** — 75% reserved for tutor, 25% platform fee
4. **30-day waiting period** — student can request a refund during this time
5. **Release funds** — admin releases payout to tutor after 30 days (or manually via Escrow Dashboard)

Access the Escrow Dashboard

WordPress Admin → Enrollments → **Financial Escrow** (submenu)

Column	Details
Course	Course title and enrolled student
Amount Paid	Total fee paid by student
Tutor Share (75%)	Amount for the tutor
Platform Fee (25%)	Platform commission
Release Date	Date funds become eligible for release
Status	"DUE" if past release date, or date countdown
Action	"Release Funds" button to process tutor payment

8. Authentication & Security

Login Methods

User Type	Login URL	Method
Administrator	<code>cms.mytuitioncenter.pk/admin</code>	Username & password → redirected to Admin Dashboard
Tutor	<code>cms.mytuitioncenter.pk/tutors</code>	Magic link or credentials → redirected to Tutor Portal
Student	<code>cms.mytuitioncenter.pk/auth</code>	Magic link or credentials → redirected to Student Dashboard

Magic Link Login

Users can log in without a password by requesting a magic link sent to their email. Click the link in the email to be automatically logged in and redirected to the correct dashboard.

Device Verification

Student accounts are locked to a specific device. If a login is detected from an unrecognised device, the session is blocked and the user is logged out for security.

Account Freeze

Both students and tutors can freeze their accounts. Frozen accounts cannot access course content, and the freeze pauses any active time-based commitments.

9. Auto-Deploy & Content Publishing

How Content Goes Live

1. **Edit content** in WordPress (add/update/delete courses, tutors)
2. **Auto-Deploy triggers** — the Vercel Deploy Hook fires automatically
3. **Vercel rebuilds** the client website (takes ~1–2 minutes)
4. **Site updates** — changes appear live on `mytuitioncenter.pk`

Setting Up Auto-Deploy

1. In Vercel Dashboard → Settings → Git → **Deploy Hooks**, create a hook named "WordPress CMS"
2. Copy the generated URL
3. In WordPress → Settings → **Auto Deploy**, paste the URL and save

Tip: Auto-Deploy triggers for ALL changes to courses and tutors (add, update, delete, trash). No manual redeployment needed.

10. Troubleshooting

Courses not showing on the website

Issue	Solution
No courses in API	Check <code>cms.mytuitioncenter.pk/wp-json/wp/v2/course</code> — should return JSON
REST API blocked (403)	Go to Settings → Permalinks → save as "Post name". Check security plugins.
Website not updated	Auto-Deploy may not have run yet. Wait 2 minutes or manually redeploy on Vercel.
Wrong API URL	Verify <code>PUBLIC_WP_API_URL</code> is set correctly in Vercel environment variables
Meta fields empty	Edit the course in WordPress and fill in the Course Details meta box fields

Login not working

Issue	Solution
Wrong credentials	Use the "Lost your password?" link on the login page
Magic link not received	Check spam folder. Try again after 60 seconds.
"Device mismatch" error	Your account is locked to another device. Contact admin to reset device lock.
Account frozen	Log in and unfreeze your account from the dashboard settings.

Enrollment / Payment Issues

Issue	Solution
Enrollment pending	Admin needs to verify payment receipt and publish the enrollment

Receipt upload fails	Ensure file is JPEG, PNG, or PDF under 5MB
Refund not available	Past 30 days or more than 25% course completed

Class Access Issues

Issue	Solution
Video not playing	Check that the YouTube ID is correct in the class settings
"Join Live" not working	Contact the tutor to ensure the session URL is properly configured
Classes not appearing	Only enrolled students can see classes for their enrolled courses
